

MY BOOK[®] LIVE[™] DUO

Personal Cloud Storage

**All your content,
double-safe,
enjoyable anywhere.**

- Connects to your wireless router with easy setup
- Double-safe backup and storage for PC and Mac[®] computers
- Secure remote access and mobile apps

Connect this powerful drive to your wireless router for shared storage on your home network. Share files with PC and Mac computers, stream media to your entertainment center and access files on-the-go with secure, remote access and apps for your mobile devices. And with RAID 1 technology, you have double-safe backup for your data.

PUT YOUR LIFE ON IT[®]

MY BOOK LIVE DUO

Personal Cloud Storage

Product Features

Your media and files on your own personal cloud

Create your own personal cloud, without the monthly fees and mysterious location of your data. Store your media and files on the drive and access them securely over the Internet. Or, use WD's mobile apps for easy access with your tablet or smartphone. It's like having up to 8 TB of extra storage for your mobile device.

Maximum storage capacity or double-safe backup

Out-of-the-box, this two-drive system combines both drives into one large volume, serving as one drive for maximum capacity. Or, set this system to data protection mode (also known as mirrored mode or RAID 1) and the capacity is divided in half. Half of the capacity is used to store your data and the other half is used for a duplicate copy.

Complete out-of-the-box solution

My Book Live Duo comes complete with two desktop hard drives offering high-capacity, low power consumption and cool, quiet operation.

Shared storage for all your computers

The perfect dual-drive solution for centralizing and sharing data on your wired or wireless network. Connect My Book Live Duo to your wireless router to share and access videos, music, photos and important files with any PC or Mac computer on your network.

Speed without compromise

A built-in, high-powered 800 MHz CPU gives you the horsepower you need for the most demanding applications and best-in-class read speeds faster than traditional USB 2.0 drives. Stream media seamlessly and transfer files without skipping a beat.

Now streaming to your HDTV

The built-in media server streams music, photos and videos to any DLNA®-certified multimedia device such as a WD TV® Live™ streaming media player, Blu-ray Disc™ player, Xbox 360®, PlayStation® 3 and connected TV. DLNA 1.5 & UPnP™ certified.

Serve up your music with iTunes®

The drive includes iTunes server support so you can centralize your music and video collection and stream it to any PC or Mac computer with iTunes.

Automatic, wireless backup for all your computers

Protect your precious memories and wirelessly back up all your PC and Mac computers on your network to one reliable location using WD SmartWare™. Everytime you save something, it's instantly backed up. Mac users can utilize all the features of Apple® Time Machine® backup software to protect their data.

Easy to set up, easy to find on your network

In just a few minutes, you're up and running. Mac, Windows 8, Windows 7 and Windows Vista® computers will automatically find your My Book Live Duo in seconds. If you're running Windows XP, our simple discovery software makes it easy to set up the drive.

USB expansion port

Connect a USB 2.0 drive to the USB port on the My Book Live Duo to instantly add even more shared storage on your home network.

Access stored photos and files with apps for iPad®, iPhone®, iPod touch®, Android™, BlackBerry® and Windows® smartphones and tablets.

WD 2GO™ app

WD PHOTOS™ app
