8-port Gigabit
Ethernet Switch

**Instantly expand your
wired network with
Gigabit speeds**

Instantly add more devices to your high-speed network

Prioritize your media traffic

Plug-and-play right out of the box

My Net Switch makes it easy to add smart TVs, Blu-ray™ Disc players, media players, game consoles and more to your network and enjoy speeds up to 10x faster than Fast Ethernet. Eight color-coded high, mid and low priority Gigabit Ethernet ports let you prioritize your media traffic to optimize your HD experience.

My Net Switch

8-port Gigabit Ethernet Switch

Product Features

8 Gigabit Ethernet ports

Plenty of high-speed ports at 10x the speed over Fast Ethernet for your connected devices - HD game boxes, media players, Blu-Ray Disc players and more.

Port-Based QoS

Prioritize your media traffic using the high, mid and low color-coded ports to optimize your HD experience.

Full HD

Enjoy HD quality for multi-media streaming, high-speed gaming and your wired home theater needs.

Plug and play

Designed to work straight out of the box, just connect your Ethernet-enabled devices and instantly expand your network.

More efficiency

With auto-power down when your ports are not in use, and cable length detection for transmit power conservation, the My Net Switch keeps eco-friendly alternatives in mind.
