Dual-drive Storage System

**Add the power of
Thunderbolt[™] technology
to your creative workflow.**

WD VelociRaptor[®] 10,000 RPM drives inside
Daisy chain more drives for enhanced productivity
Data protection with RAID

The extreme SSD-like speed of two 10,000 RPM WD VelociRaptor drives united with the revolutionary speed of Thunderbolt technology help you complete your creative projects faster than ever. Daisy chain more drives for even more speed and higher capacity; then add peripherals to further enhance your productivity. Watch your productivity soar.

PUT YOUR LIFE ON IT[®]

My Book VelociRaptor Duo

Dual-drive Storage System

Product Features

Extreme speed

Built with two 10,000 RPM WD VelociRaptor drives inside, My Book VelociRaptor Duo delivers extreme speed and high capacity for high-end video and photo editing, 3D rendering, graphic-intensive design and more.

Bidirectional Thunderbolt technology

The revolutionary Thunderbolt connector provides two channels of up to 10 Gb/s transfer rate in both directions, allowing data to travel both ways without compromising bandwidth. This means video files are imported faster, visual effects are rendered in record time and you power through your projects.

Daisy chain more drives for more speed

The dual Thunderbolt ports allow you to daisy chain more drives for more speed and higher capacity. Connect a Thunderbolt display and other Thunderbolt-enabled peripherals to achieve maximum efficiency and productivity.

Dual drive RAID storage system

User selectable RAID or JBOD modes. Set to RAID 0 (striping) for even more performance. When set to RAID 1 (mirroring), this drive provides double safe data protection by automatically generating a duplicate copy of your data. Set to JBOD (Just a Bunch Of Disks) to use as two individual drives and select between HFS+J or exFAT per disk. Ideal for running Windows® OS on a Mac®.

User-serviceable

Want to replace a drive? Simply open the case and exchange the existing drive. If you fill up a drive, you can simply remove it and replace it with a fresh drive and begin saving even more of your creative life.

WD Drive Utilities™

Register your drive, run diagnostics, manage RAID or JBOD modes and more using WD Drive Utilities.

Move data at unprecedented speeds

Combine the speed of Thunderbolt technology with the speed of 10,000 RPM WD VelociRaptor drives for unmatched data transfers.

Transfer 500 photos in 30 seconds

Transfer 2,000 MP3 files in less than 10 seconds

Transfer a full length Blu-Ray movie in just over a minute
