

My Passport[®] Air[™]

Portable Storage

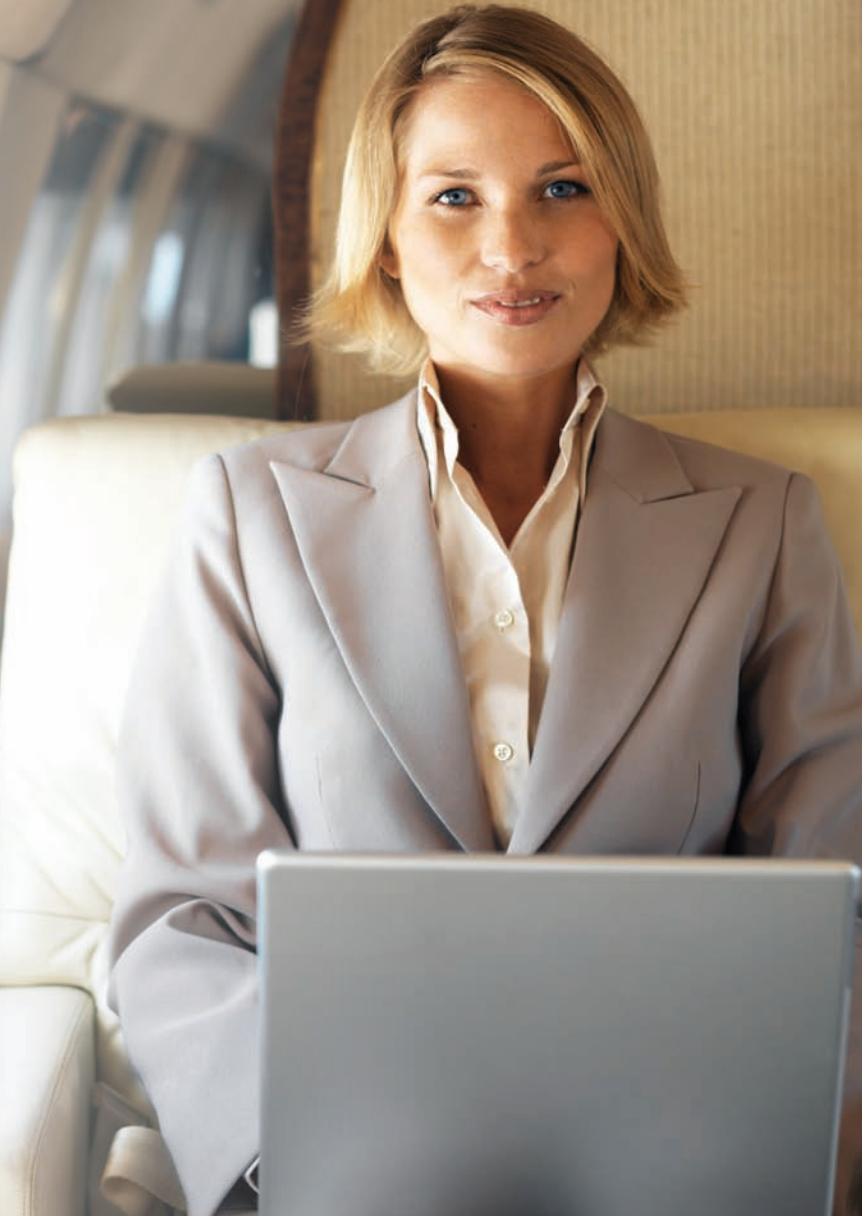

Ultra slim. All metal.
Mac-ready.

Ultra-fast data transfers

Compatible with Apple Time Machine

Complements your MacBook Air

My Passport Air offers high capacity in an ultra-slim, all-metal design that perfectly complements your MacBook Air. This blazing-fast drive with password protection secures your files from unauthorized use and makes backups easy thanks to compatibility with Apple Time Machine. It's the perfect travel companion to take your digital life on the go.

My Passport Air

Portable Storage

Product Features

Ultra-sleek design with high capacity

At just 11mm, this ultra-slim, all-metal portable drive is thin and fast with plenty of capacity for your important digital content.

The perfect complement for your MacBook Air

The premium, anodized aluminum enclosure is the perfect complement for your MacBook Air.

Ultra-fast transfer rates

When connected to a USB 3.0 port, My Passport Air portable storage lets you access and save files in blazing speed. Reduce transfer time by up to 3 times when compared to USB 2.0 transfer rates.*

*Performance may vary based on user's hardware and system configuration.

Compatible with Apple Time Machine

Works with your Mac right out of the box and is compatible with Apple Time Machine for quick and easy backups.

USB 3.0 and USB 2.0 compatibility

With this single drive you get compatibility with the latest USB 3.0 devices and backward compatibility with USB 2.0 devices as well.

Durable enclosure protects the drive inside

We know your data is important to you. So we build the drive inside to our demanding requirements for durability, shock tolerance and long-term reliability. Then, we protect the drive with a durable enclosure designed for beauty.

Secure your files.

WD Security™ software allows you to set password protection and hardware encryption for your drive to help protect your files from unauthorized use or access.

WD Drive Utilities™ software

Register your drive, set drive timer, run diagnostics and more using WD Drive Utilities.

USB-powered

Powered directly from the USB port on your Mac. No separate power supply is needed.

As used for storage capacity, one gigabyte (GB) = one billion bytes; one terabyte = one trillion bytes. Total accessible capacity varies depending on operating environment. As used for transfer rate or interface, megabyte per second (MB/s) = one million bytes per second, and gigabit per second (Gb/s) = one billion bits per second.
