

WD Nomad™

Rugged Case

Built for the harsh realities of life.

Resists 7-foot drops

Seals out moisture and dirt

Convenient opening for USB cable

Some risks are worth taking; losing your files is not one of them. WD Nomad is the rugged case specifically designed to protect your My Passport® portable drive. Whether you're on a photo shoot in the desert, hiking Kilimanjaro, or a busy mom storing photos and videos of the kids, this rugged case delivers the ultimate protection for your My Passport portable drive.

PUT YOUR LIFE ON IT®

WD Nomad

Rugged Case

My Passport drive not included.

Product Features

You can take it with you.

Impact resistant

Designed for the photographer, adventurer, traveler, or student on the go, this durable case is built with impact-resistant, polycarbonate plastic on the outside and a shock-absorbing, elastomer cushion on the inside to protect the drive inside from scratches and from drops as high as 7 feet (2.13m).

Carabiner-ready ring

Attach a carabiner, cable, or nylon strap to the molded exterior ring and hang the case from your backpack or purse for easy accessibility.

Moisture and dust resistant

The heavy-duty latch securely closes the case and the silicone cushion provides a tight barrier that resists spills, moisture, dust, and dirt.

Convenient opening for the USB cable

With an opening for your drive's USB connector, you don't have to take the drive out of the case to use it. Just plug in the USB cable, and it's ready to go and fully protected. The opening also features a unique sealing cover to keep moisture out when the drive is not plugged in.

Trust the leader

WD understands the importance of the data you trust to your drives and we are dedicated to protecting it. We are a longtime leader in the storage industry and we've transferred this expertise into the design of the WD Nomad so you can rest assured that your drive is protected inside this rugged case.

Custom-designed for My Passport hard drives

Specifically designed to protect the following My Passport models.

WDBAAA, WDBAAB, WDBAAC, WDBABM, WDBABW, WDBACX, WDBACY, WDBBEP, WDBBXV, WDBGCH, WDBKXH, WDBL1D.

Not compatible with My Passport 2 TB models (WDBKXF, WDBY8L) and all My Passport Studio models.
